# BULK STYLE SEED CART

## Options to Best Fit Your Needs!

Transport seed from the shed to the field efficiently in a Travis Seed Bulk Cart. With base models that can hold 275 or 375 seed units, these carts offer dual season use in the spring for seed transportation and in the fall for precision weigh carts. Choose between poly-cupped auger or cleated conveyor, Travis Seed Bulk Carts are capable of moving all grains, whether it's corn, soybeans, oats, barely, wheat, cotton or other small seeds.

Pick the seed unit capacity and scale or scale-ready option for a cart that best fits your operation's needs. When weighing, our separate intermediate frames offer amongst the most accurate scale systems in the industry. The wireless remote allows the operator to function all hydraulics at their fingertips from a large radius around the cart allowing for maximum flexibility.
