

THE SANDPIPER

SALT • FERTILIZER • SAND • SEED

Spread from 3' - 30'

- Scoop design for self loading from the cab
- Universal attachment fits on most makes and models of skid steers
- Steps are positioned on both sides for easy cab access

Applications:

- **Snow & Ice Management** – Spread sand or salt on roads, parking lots, sidewalks or any area during the winter
- **Turf & Lawn Care** – Spread various sizes of seed, fertilizer or lime during planting and growing seasons
- **Livestock Health & Safety** – Spread lime or other products in barns or on lots to prevent slippage and keep livestock dry

THE SANDPIPER

SALT • FERTILIZER • SAND • SEED

HSP18

HSP08

Standard Features:

- **Overbuilt to Outlast** – Hand welded, certified American steel and inspected against the highest quality standards is why our employees are so proud of this Midwest made product
- **Long-Lasting Powder Coating** – Our custom finishing will withstand the elements better than anything else on the market
- **Steel Spreader** – This formed steel part will hold up against the toughest elements use after use and won't crack or break in freezing temperatures
- **Replaceable Spreader Paddles** – Individual paddles are bolt-on and replaceable after years of wear and tear that come with spreading in extreme conditions
- **Protective Grate** – A heavy duty screen with 3" square openings bolted to the top of the hopper for your safety and to protect the inside components from damage

- **Steel Agitator** – Rotating agitator in the center of the box prevents materials from bridging during application and ensure constant flow
- **Adjustable Gates** – Manual, easy to set gates allow infinite settings for heavy or light applications
- **Convenient Steps** – Located on either side of the attachment, steps have been placed for easy movement in and out of the cab
- **Easy Access to Hydraulics** – Standard couplers are provided with the attachment along with high quality hydraulic line
- **Self-Loading with Cutting Edge** – Tip the spreader down and use it as a scoop to refill without getting out of the seat
- **Quick-Tach Mounting** – Standard quick-tach plate mounts allow for mounting on most models of skid steers today

Optional Features:

- **Removable Sidewalk Skirt** – Once set, wrench-free kit allows for precise spreading at 30" or 38" area for keeping materials on a sidewalk or path
