BOX STYLE SEED CART

AUGER OR CONVEYOR;

Travis Seed Cart is what you need!

Seamlessly control your seed transfer from bulk box to planter with a cart that has a low center of gravity and HitchDoc's reliable, self-contained hydraulic system. Travis Seed Carts are designed to perfectly fit your operation's needs, whether you need a poly-cupped auger system or cleated conveyor system. Both systems handle corn, beans, oats, wheat and other small grains with care and ease for a quick, yet safe, move to the planter.

HIGH VOLUME AUGER;

Fill Your Planter Faster than Ever!

Boost your seed cart's efficiency with the new 8-inch High Volume Auger. Designed for faster seed transfer, this auger increases unload speeds by up to 50%, making it ideal during busy planting seasons. Its robust construction and precision design ensure smooth, reliable seed flow, minimizing unload time and keeping your operation moving efficiently.
