BULK STYLE SEED CART

Options to Best Fit Your Needs!

Transport seed from the shed to the field efficiently in a Bulk Style Travis Seed Cart. With base models that can hold 240, 275, or 375 seed units, the Bulk Style Travis Seed Cart is ideal for both spring seed transportation and fall precision weigh carts. Available with either a poly-cupped auger or cleated conveyor, Travis Seed Carts are capable of moving corn, soybeans, oats, barley, wheat, cotton, or other small seeds quickly and efficiently.

Pick the seed unit capacity or scale option for a cart that best fits your operation's needs. When weighing, our separate style frames make for the most accurate scale systems in the industry. The wireless remote puts all hydraulic functions at the operator's fingertips for maximum flexibility.
