

# TRACTOR SNOWBLOWER

## Standard Features:

- **Hydraulic Controls:** 270° hydraulic rotary spout with a wide opening and hydraulic deflector (excluding HDS7105) for maximum volume
- **High Strength Steel:** Thick, US Prime steel frame and extra corner bracing for strength under extreme conditions
- **Powerful Auger:** Strong auger flighting laced with tiger teeth to chew through crusted, heavy, wet or frozen snow driven by a #80 HD chain (7105 uses #60 chain)
- **Design Protection:** Shear bolt protection on fan gearbox and auger to diminish costly repairs expenses and downtime
- **Cutting Edge:** Save wear on the blower and your surface with a grader blade that bolts on with adjustable and replaceable skid shoes
- **Industrial Finish:** Powder-coated with a baked on, sharp yellow finish for a long lasting and safe appearance
- **Accessible Maintenance:** Make maintenance easy with greaseable bearings, heavy-duty polyurethane idler wheels and easy chain tension adjustments
- **Strong Fan:** With multiple, equally spaced and heavy-duty paddles, create an effortless cup and discharge with added durability
- **Category Mounting:** Blowers fit Category 2, 3, and 4 (model dependent) tractors with adjustable 3-point hitch connections and stand
